Easter and Earth's Redemptive Program

Life on Earth is cyclical and this is a Blessing. We can look forward to recurring seasons and patterns that we can observe and be reassured by. As the annual Easter celebration of Spring approaches, we know it will be followed by the Summer Solstice, the Fall Equinox, the Winter Solstice and seasonal celebrations as the planets move within our solar system and the heavens. Depending upon where you are located and your culture, every year presents events that you anticipate, including national holidays, birthdays and family celebrations. Yet within this predictability, there is always the possibility for Personal Change and time to implement new patterns for yourself. Small

Shifts and Changes in your personal world can have far broader effects in your Life than you may anticipate. By opening up to New Ideas and Perspectives as you are prompted, new patterns of thinking or behavior can soon shift into regular habits (taking 21 days usually) and your vista and potential expands. This is the way of the Divine Plan of the Universe for you.

Our beautiful blue planet is a prime example of this process. The Chandler Wobble, as represented above, illustrates how our planet, held within its regular orbit, rotates at the poles bringing variation to our atmospheric effects, weather patterns and ocean movements. Predicted by Isaac Newton, the identified Chandler wobble or Chandler Variation of Latitude is a small deviation in the Earth's axis of rotation relative to solid Earth which was discovered by and named after American astronomer Seth Carlo Chandler in 1891. While this wobble affects GPS, celestial navigation and the length of any given day, we may not notice this at a given moment, but with hindsight we can witness the overall effects. The energies below, upon, around and above the Earth, together with energies streaming to us from the heavens and through the Ascended Masters' Syncretism are supporting our gradual metamorphosis into Beings of Light, our Ascension process within Earth's Redemptive Program and our ultimate Transfiguration, our gradual metamorphosis into Beings of Light in the Ascension process. Energies, Frequencies and structures beyond our visual confirmation are in place and operating for us.

By reviewing the past we can learn (hopefully) not to repeat past errors and omissions. It depends on where your Consciousness is at any given point. Presently, while President Putin of Russia is locked into repeating the wars of the past and devastating the lives of millions of people without conscience, other nations and people around the globe are uniting in their response to his atrocities. We surely are receiving once more the lessons of how egregious ego and greed can affect us All on a global scale. Negative karma is made by Man, not by God.

Thus, Trust and Faith are crucial tenets for us at this time, to know that there will be a beneficial outcome for us All as we emerge from the pandemic and the crimes against the Ukraine. We must know in our hearts that the Divine Plan is at work for our benefit. It is a Blessing to know that the celebration of Easter returns each year. Jesus came to show us the Way, the Truth and the Life but he could not interfere with the will of Man any more than the Ascended Masters can interfere with ours today. Through the Resurrection, Jesus showed us directly that we too can follow the Path of Redemption and ascend into our Lightbody if we so choose. His Life Example and Teachings provide (along with so many other Masters) how we can raise our Vibration and accelerate the Ascension process for the planet and ourselves. Can we not, after 2,000 years, learn from the past and implement better ways of living and overcome the erroneous thinking of the past? We each have to play our part and proactively pursue our Spiritual Evolution for the benefit of the whole (the Collective). No-one else can

do this for us. We ARE the Second Coming of the Christ whose loving Presence works through us and for us.

There to, let us be proactive for ourselves and the planet and participate to attain Victory in the Redemptive Program for planet Earth within the Divine Plan. We are being lovingly supported in this process. It is easy to be complacent but so rewarding to follow your promptings to be, do and have all that you are destined to be, do and have and to work towards fulfilling your potential. Whatever situation you find yourself in, whatever obstacle you face, no matter what the world may say about you or to you, the human experience and Man's shared history upon this planet show you that there is always a force greater than you at work. An incredible smorgasbord of Opportunity awaits you, all according to the Divine Plan of the Creator, Mother-Father God. Learn to be happy again through your own Personal Resurrection.

Endings and Beginnings and the Inevitability of the Cycles of Time

As we enter the Christmas Holiday and New Year season, we witness the beginning of the period of Light heralded by the annual Winter Solstice on December 21st. It is, of course, no accident that in 2020 we weathered so much around the world for the great conjunction of Saturn (bringing Contraction) and Jupiter (bringing Expansion) passed once more through our gamut of experience and perception after a lapse of some 800 years. How is Contraction and Expansion possible at the same time and what does it mean? Saturnian structure, testing, confining and organization happen to enable the Change, Growth and Expansion effects of Jupiter to occur. These are necessary for the Evolution and Ascension of our world.

Perhaps it feels as if a great force has overtaken you, perhaps loved ones have gone and you do not know what lies ahead. Step by step we are each being shown the way to usher in and master our own individual situations and move towards our future Growth during these cycles of Change. It sounds straightforward, yet such Expansion requires a loosening of grip on things that have supported us in the past and that no longer serve. In their place we are starting to build new structures that will carry us forward and build a new foundation, a Fifth-Dimensional Consciousness of Universal and Unconditional Love on and for the planet. Releasing control, letting go of certain realities and even relationships will take you to your next level. It may be challenging, stressful and even physically painful during such periods of Transition, but we are assured that these times of Change and Transformation come and go to bring about our necessary Evolution. We must trust that things
